

FMGC at EWEA 2015

Visitors & Data

The Visitors!

64% of the visitors are active in both MRE and Oil & Gas sectors, **31%** only in the MRE and **5%** only in the Oil & Gas.

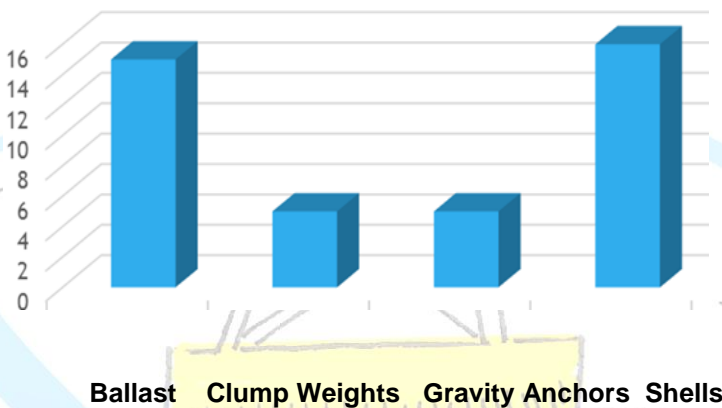

A significant number of traditional Oil & Gas companies are ready to diversify in the MRE.

Visitors at the fair displayed a keen interest in our solutions. Oil & Gas is a relevant business partner.

Our EWEA visitors came mainly from Europe!

Number of Societies, interested by:

We met **37** companies at EWEA.

28 of them are interested in our products and **9** of them in our activities.

Wind Turbine Ballast for Gravity Based Foundations is denser than concrete and can be directly integrated in the foundation.

Protecting and ballasting shells for submarine cables

reduce the cost of the electrical connection for MRE solutions and thus - the cost of the kWh.

Thanks to our successful marketing & communication, all FMGC products were known by the audience.

Many customers follow us on social media.

FMGC solutions continue rising attention among MRE and Oil & Gas key players.
